### GENERAL SPORTING NEWS OF THE DAY

Once more rain vetoed the intentions of our sluggers yesterday. They had fully intended to be revenged on the Brooklyns yesterday, but the clerk of the weather arranged it otherwise. They may be so inclined to-day, and it is to be hoped that if the weather permits they will be able to turn the tables on the wonders of Brooklyn. It is likely that two games will be played, and while the chances are against their winning two games, it is possible for them to

Yesterday afternoon a prominent official of the club said: "We have had more than our share of misfortunes, but under the ciremmstances I am satisfied. Our team has won the majority of games away from home, and that is a great thing to do, I am, of course, counting games that have been scheduled to be played away from home. This goes to show that if our pitchers had kept all right we would have ad one of the best teams in the league. Just rely on what I say: We will have a first-class team here before the season is

"Rain continues to bother us financially, but we are sure that in the second half of the senson things will be much better. I cannot say what Captain Burns is doing regarding getting new men. He has full charge, and I feel confident that he will do the best that can be done. I hardly believe that he will sign O'Connor, as he is a left-hander, and we don't want too many of that It seems to me that one or two clubs in the League are in a position to help out the weaker brethren. When Baltimore asked us for help we responded, and Mr. Byrne, of the Brooklyn Club, stated then that he would let Baltimore have two pitch-Mr. Byrne has not done so yet, dithough the committee that distributed players gave him the best of it. This graspspirit is going to have a rainous effect on the organization. There was little or no airness shown in the distribution of players, and since then the strong clubs prefer to keep good men warming the bench rather than let them go and help a weak team. All

this will be dealt with sooner or later."
It was stated in local buseball circles that there is to be a meeting of the magnates in this city next week to discuss the situation. The magnates of the old

A dispatch from Baltimore last evening stated that Messrs. Reach, Wagner, Von der Ahe and Von der Horst had held a meeting there and formulated plans for the Pittsburg meeting.

Morris Park Entries and Tips,

trary, the team should be entirely under Chapman's control and asking him to ap-point Tom Brown as Captain and Taylor as-sistant captain. Chapman is directed to read the letter to the players and call on all to do their utmost to play winning ball. This letter is the result of a directors' meet-ing and disposes of the rumor that Chap-man might be displaced and Pfeffer put in charge. New York, June 9.—[Special.]—The Tobog-gan Side handicap should be a great contest at Morris Park to-morrow. It would be greater with an absolutely dry track for the sprinters to race on, but Russell, Tourna-ment, Correction, Fairy, Madstone and Tor-menter are equally at home in the mud or on a lightning tast course, so that the race is bound to be interesting. Tournament is a horse of marvelous speed and he revels in the mud, so the Sun names him to win, although he has not raced in public in almost a year. The pick of the Morris pair (Russell or Correction) may run second. The (Russell or Correction) may run second. The Bay Chester stakes looks like a good thing for Roller, and Kennebec may second, as he is a much better colt than his races would lead the public to believe. Miles Standish should win the opening event, with Courtship second. Rex should win the second, with Fidelio in second place, and the public will have a chance to see whether Mendicant is as good a filly as Raindrop, as the pair meet in the fourth race at even weights. Raindrop on public form should win without any trouble. Kirkover and Gettysburg should be worthy of support in the last; in fact, Kirkover looks like a real good thing with a jockey in the saddle. Entries:

First race, five furbas-Sir Richard, Prince George, Miles Standish, Lindsay, Galety III, Couriship, Mendacity 168.

Second race, one mile—Rex 162, Barefoot, Fidelio, Julien 160, Madrid 16.

terest to local cranks, as Jack Coleman, who used to be one of the Alleghenies, is on the Lebanon team, and so is Day, the pitcher that Harry Wright tried, Lebanon has a good team, and they will make the Pittsburg good ream, and they will make the Pittsburg team do their best.

Wilkesbarre patrons of the game have offered the local club free grounds and a guarantee against any loss, or they offer to buy the club entirely. There will be a meeting at Johnstown to-morrow to take definite action as to which city will get the club. Undoubtedly the team are a fine lot of players in their class, and will be a credit to any State Learne city.

# MISCELLANEOUS SPORTS.

Billy Delaney Outlines a System of Training for Corbett. New York, June 9.-Billy Delaney, James Corbett's trainer, has agreed upon a course of training for Corbett for his fight with Sullivan. It is as follows: He will arise each morning at 7 o'clock. After a light shower bath he will get a thorough rubbing with soft towels. Then he will loiter around until 8 o'clock at which time breakfast will be served. This meal will consist of tea, rolls, chops, steak, etc. He will then rest about an hour. At 9:30 o'clock he will take a walk of about four miles to the sea and re-turn home in time for dinner, which will be served at 12:30. This meal will be composed of all kinds of vegetables, steak, chicken, served at 12:30. This meal will be composed of all kinds of vegetables, steak, chicken, chops, beef, bread, toast, bowl of tea and a bottle of Bass ale. He will not eat pastry of any kind. After a rest of about an hour he will don two sweaters, then take a sharp walk of about 15 miles, climb steep hills, etc., and will indulge in a brisk run back. Following this he will punch the bag, skip the rope, play hand ball, billiards and pool. The next thing will be for him to lay on his back and take a couple of rolls on the grass. When he gets through with this some powerful man, who will be employed for the purpose, will throw his arms around Jim's neck and pull it until he is tired. This will help strengthen the muscles located there, which are very essential in fighting. Jim Daly, his sparring partner, will then box a couple of rounds with him, and after that the two will either go boating or play baseball. After this Jim will rest until 6:30, when supper will be caten. This will consist of very light food. He will rettre to bed at 11 o'clock after induging in some light exercise. The reason why he will go to bed so late is simply this: His fight with Sullivan will not, I'm sure, be pulled off until about that time, and if he was to go to sleep at an earlier hour he would naturally become used to it and feel kind of sleepy when called upon to remain up a little later. So you see I have taken every precantion to get my man in splendid form. I predict that Jim will be as perfect a conditioned man as ever stepped into a ring.

### ANOTHER NEW RECORD.

Emmerman, the American Bicyclist, Does One More Wonderful Feat. ASBURY PARK, June 9.—[Special.]—A cable-gram received at Asbury Park to-day states that Arthur Zimmerman, Asbury Park's

champion bicyclist, succeeded in breaking other record at Berlin , Germany, on Mor day, when he rode a half mile in 1:04, there beating the record time secently made by Edge, of England, 28-5 seconds. ter of a mile.

The young American rider has not yet met Osmond, the English champion, but expects to do so on the 18th of this month on the amous Herne Hill track in England. ### SHANER GETS THE MEDAL

The Popular Local Shooter Wins at the

Western Sportsmen's Shoot. The annual shoot of the Western Sports men's Association took place at the Salt Works grounds yesterday and was well at-tended. The shooting was excellent, and E. E. Shaner captured the handsome medal for the best shooting at live birds during the day. He killed 34 out of 35, winning two day. He killed 34 out or 30, whill contests, but as the rules prohibit a contest-ant from winning two first prizes he had to be content with the medal and the honor.

At the clay-bird shooting J. O'H. Denny and C. M. Hostetter tied with each 18 out of 20. Mr. Denny won the shoot-off.

G. E. Painter won the 200-yard rifle match, and W. S. Bown was first in the 100-yard rifle contest.

He praised the ability of his opponent, whom he called the best man he ever met. Billy Murphy announced he was in better condition in the late go than when he fought Griffin and he hoped soon to fight the Bostonian for the championship of the world. Referee Sullivan then awarded the fight to Johnnie Murphy, and said as far as he was concerned all wagers were off.

#### To-Morrow's Big Race.

Great preparations are being made for the big foot race to-morrow at Recreation Park between Priddy and Kennedy. Workmen have been employed during the last day or two rolling the track, and if the rain keeps away there will be a splendid track. Kennedy is expected to arrive in the city to-day. The betting on the result is still even. The race will start to-morrow afternoon at 5 o'clock. Great preparations are being made for the

Fourth of July sports.

Major Doxo is at Sheepshead being prepared for the Suburban. The horse is in grand shape, and according to the rail birds all is over except the shouting. BERNUDA and Tournament will not, in all probability, face the starter in the Suburban. Mr. Keene had great hopes of being able to capture the prize with his high priced horse, but he does not feel particularly encouraged over the outlook.

Tomay White, the Chicago feather-weight, and Padey McBrive, of Philadelphia, have challenged Johnny Griffin to fight for 81,000 a side and a purse. Griffin tried to get on a light with White a year ago, but the latter refused to meet the Braintree feather-weight. THE greatest misfortune that has befallen the Harvard crew is the failure of Harry Keyes, '87, to not as a coach while it is practicing on the Thames, He is by far the best couch Harvard could hope for, and it was his work very largely that put the crew into winning form last June.

The fight between Billy Smith, of Australia, and Frank Childs, a colored pugilist, who whipped La Bianche, which was to take place in San Francisco, has falien through, owing to the club that matched them being mable to raise the purse it offered. Smith has gone to Sait Lake to fight Williams, who bested La Bianche for a \$2,000 purse.

GREAT DISASTERS PASS UNHEEDED.

Continued From Seventh Page. ing itself out, but not another topic has been discussed at either the hotels or in other much frequented places. I have talked with many persons, but have heard nothing of politics, business or ought save the dread Oil creek disaster.

The relief corps is doing excellent work,

and is relieving countless suffering people in the way of food and clothes and other necessaries. The corps is protected from impostors by the small size of the place, as everybody knows everybody else, and tramps are most summarily dealt with. The much needed contributions continue to come in from the sympathizing outer world, and are put to the most advantageous use. A new order of things went into effect to day towards protecting the city from dis-reputables, by the guards ordering all sus-pictious looking persons out of the city limits and warning them against returning. One body of 26 villainous looking men were sent from the city this morning within half an hour after they arrived upon a Valley freight train. One of the County Commis-sioners of Crawford county was in the city to-day, and said the county would sustain a loss of from \$40,000 to \$50,000 from the flood by the destruction of bridges. Twenty-five wagon bridges were washed away at a loss of from \$1,200 to \$2,000 each.

Pathetic Stories of Bravery. Stories of sweet pathos, rare bravery, narrow escapes and singular instances of families reunited after days of separation continue to come in. Perhaps the most pathetic of all is the case of Mrs. and Mr. John Chawke, both of whom were burned to death and were buried in the same grave.
In life they were separated, runs the story, and had not lived together for many months.
In the walk of death during the terrible disaster both souls went out, and the grieving relatives had both bodies laid in one grave. Another pathetic instance was that of the Terwilliger family. Three of the boys are dead, a fourth still lives. The old gray-haired father, long past the sixth decade of life, remains about the street with an ex-pression of terrible grief upon his face. For 15 years he has been estranged from his sons, although the filial love-in his old heart is, and has been, as strong as it was when his boys were children.

I talked with the old gentleman at the

cemetery to-day as the mutilated form of his second son was exposed to the gaze of the curiously morbid throng of people who stood about, and his simple words as he told of his great sorrow were peculiarly affecting. He did not mention a word of displeas ure or anger at the cause of the old origi-nal trouble of long years ago. His language was of parental sorrow—deep, pure and affecting. The tale is near told. The missing are being found, and soon nothing but the ghastly memory will live. West.

Legendary Lore Connected With Canandohta Lake-How a Complanter Abo riginee Prophesied the Overflowing of the Waters and the Destruction of the

LINCOLNVILLE, June 9 .- [Special.]-The hostler at the Canandohta Hotel who, it is said, is a Cornplanter Indian, gave a very interesting talk to-day on the bursting of the Canandohta dam. He said the lake was originally called Washington Lake, was discovered by General George Washington in 1753, who was at that time a young surveyor sent out by General Dinwiddie, of Virginia, to Fort Le Boeuf (now Water-

Following the natural waterway from Fort Duquesne, Washington ascended the Allegheny river to the mouth of French Creek, thence up French Creek to about the location of Meadville, Pa ; there finding the Indians in a dangerous mood, he crossed the highlands in an easterly direction and found a small lake, on whose shores was a tribe of the Seneca nation with a chief by the name of Canandohta, who being under the control of the famous Chief Cornplanter, pretended friendship to Washington and sent his youngest son, Flying Cloud, to act Montgomery, Miss E. Chester, Miss Eagye. as guide to Washington and his party to No. 4, Miss Lawton; aids, Miss Mary Scott Le Boeuf, for which service he

Shortly after Canandohta made war on number of white hunters, but was restrained by the Chief Cornplanter. Hot words ensued, in which Chief Cornplanter finally ordered the Seneca chief to leave the lake and move further west. It is said that when the Indians were ready to move, the Seneca chief cursed the great Chief Corn-planter and said: "My tribe will go with me, but when the day shall come when the last Seneca Indian has left the valley, then will the waters of my lake beside which my forefathers have lived -then shall they over flow their banks and kill the accursed white

Convention Delegates Asked to Contribute to the Relief Fund.

[FROM A STAFF CORRESPONDENT.] MINNEAPOLIS, June 9 .- John J. Carter and C. B. Smithson, delegates from the oil regions, to-day received a communication from Mayor E. O. Emerson, of Titusville, and Mayor Hunt, of Oil City, about the terrible disaster in that section. Mr. Carter asked permission to read it to the convenand the request was granted. It stated that owing to the prominence of

the convention the people have failed to realize the extent of the loss of life and realize the extent of the loss of life and property from the flood and fire. The Mayor urged that newspapers call attention to the necessity of immediate relief to prevent further suffering and death. It was promised that all contributions should be carefully distributed by competent and honest men in the afflicted district. The statement was received in dead silence, and will result in the collection of considerable money for the sufferers.

### FIVE MORE BODIES FOUND.

They Were Taken From the River 20 Miles

Below Oll City. FRANKLIN, June 9 .- [Special.] - The work of searching for the dead of the Oil City and Titusville disaster is still being kept up vigorously, and the belief that many bodies are among the debris which lines the shores of the Allegheny river is becoming general and the searchers are

successfully renewing their efforts.

Five more bodies were found this morning at Kennerdell, 18 miles below here. They were all in an advanced stage of decom-position. The fact that so many dead have been found at a distance of 20 miles from the scene of the disaster shows the sweeping force of the flood and as an indication of the loss of life is a fact of startling signifi-cance, and one cannot help but form the opinion that many more are still in the Allegheny river and Oil creek.

### JUNE ROSES IN CHURCH.

Young Ladies Inaugurate a New Structure in Wilkinsburg.

An important social event took place in the new Methodist Episcopal Church, Wilkinsburg, last evening. It was a supper given by the Young Ladies' Aid Society, in the new edifice, and was the first time the church has been used for anything. The building is not finished, but the ladies decorated the rough interior with June roses, so that one hardly noticed the presence of plaster and the absence of proper flooring and ecclesiastical furniture. There were six tables all banked up with the fragrant blossoms, and well supplied with dainties for the refreshment of the inner man-and woman. The desire to see the new church —the handsomest in Wilkinsburg—as well as to assist in paying something toward the building fund, drew a very large attendance last night. There was no regular programme, but plenty of social enjoyment.

The flower booth was in charge of Mrs.

Storer and Miss Strickler. Ice cream table No. 1 was presided over by Miss Smith, while No. 2 was in charge of Miss Roberts. while No. 2 was in charge of Miss Roberts.
